

Modular Multi-Functional LED Tower Lights

QT70(M)L series

Thank you for purchasing Qlight's products. Please read this user manual carefully prior to installation and operation to ensure safe and correct use.

⚠ Precautions for Safety

Failure to follow the instructions below may cause a loss of life or serious physical injury.

1. During wiring or maintenance, please completely turn off the power of the product. (Failure to follow this may lead to an electric shock.)
2. Do not install the product in locations that subjects it to excessive dust or water other than the conditions designated by the IP protection ratings indicated for each product. (Failure to follow these instructions may cause a fire to the product, electric shock, physical injury, malfunction or damage to the product.)
3. Do not alter or repair this product. If maintenance or repair service is required, please contact your local Qlight contact point. (Failure to follow these instructions may lead to fire, electric shock, or product damage.)
4. Please apply the correct voltage to the product. (Failure to follow these instructions may lead to fire, electric shock, or product damage.)
5. When the product is applied to a condition that may impact lives or property, please make sure to have a double safety device. (Failure to follow this may cause damage to property, fire, electric shock and loss of life.)

⚠ Precautions for Correct Use

Failure to follow the proper instructions may cause damage to property, the product, or malfunction of the product that would void the warranty.

1. Please remove any objects that can interrupt ventilation around the product.
2. Please turn off the power of the product immediately if it fails to operate properly.
3. Carefully wire the product according to each product's specification.
4. Please be careful in preventing chemicals such as thinner, benzene, etc. in contact with the surface of the product.
5. Do not apply excessive force/impact to the product.
6. Failure to follow any of the instructions above may cause malfunction or damage to the product, fire, and electric shock.

Ordering Specifications

• QT70L

QT70L	3	24	RAG	QZ24
[Model number]	[Layer]	[Voltage]	[Color]	[Mounting option]
• QT70L	• Layer1-1	• 12-DC12V	R-Red	• (None)
• QT70LF	• Layer2-2	• 24-DC24V	A-Amber	• Standard type
• QT70ML	• Layer3-3	• 110-AC110V	G-Green	• Mounting type

Wiring Instructions

■ Wiring using external contact

- In case of wiring with external contacts, refer to the wiring diagrams below according to your product's type and voltage setting.

	Wiring instructions		Wiring instructions
DC/AC standard		DC/AC buzzer	
QT70ML(F) QT70MLS(DC only) QT70MLR(DC only) QT70L(F) QT70LS(DC only) QT70LR(DC only)		QT70ML(F)-BZ QT70MLS-BZ(DC only) QT70MLR-BZ(DC only) QT70L(F)-BZ QT70LS-BZ(DC only) QT70LR-BZ(DC only)	

■ Wiring using transistor

- When using a transistor, please choose between the NPN or PNP type transistor which best matches the voltage and product type, then connect them correctly according to the wiring diagrams below.

	Wiring instructions	
DC standard		
QT70ML(F) QT70MLS QT70MLR QT70L(F) QT70LS QT70LR		
DC buzzer		
QT70ML(F)-BZ QT70MLS-BZ QT70MLR-BZ QT70L(F)-BZ QT70LS-BZ QT70LR-BZ		

- DC steady type cable specification : External power/ signal line - UL1007 AWG22(0.3sq) 400mm.
- AC steady, AC/DC steady/flashing type cable specification : External power line - UL1015 AWG18(0.75sq) × 2C 400mm,
External signal line - UL1007 AWG22(0.3sq) 400mm

How to replace the module / Light Function Selection

How to replace the module

- Disassembling the module
 - ① Twist the upper module kit in a counterclockwise direction so the "□" mark from both kits align.
 - ② Disassemble by removing the upper module kit from the lower one.

- How to disassemble the connector
 - ① Disassemble the connector of the upper lens and the connector of the lower lens in the direction of the arrow.

- How to assemble the connector
 - ① Assemble the connector of the upper lens and the connector of the lower lens in the direction of the arrow.

- Assembling the module
 - ① Put the two module together by aligning the upper module's "□" mark and the lower module's "□" mark together.
 - ② Lock the two kits by twisting the upper module kit in a clock wise direction so the upper module's "◁" mark aligns with the lower module's "□" mark.

Light function selection

► L : Steady

► LF : Flashing

- Please refer to the instruction below to use light function selection switch(①) located inside the product.
- Default function is set at steady LED. Select the desired function for your application during installation.

Buzzer Volume Adjustment Instructions

※ Built-in sounder type can't control the sound volume.

Buzzer volume is reduced by sliding the volume control lever to the left as shown in the diagram.

(Min. 65±4dB/m)

Raise/ Increase the buzzer volume by sliding the control lever to the right as shown in the diagram.

(Max. 85±4dB/m)

Mounting Hole Specifications

- ① Machine holes on the mounting surface referring to the diagram below.

- ② Remove the flange nuts from bolts and place the product through the mounting surface holes.
- ③ Fasten the flange nuts on the opposite side of the mounting surface until the product is tightened securely.

Installation Environment and Protection Rating

- This product is designed for indoor use with protection rating of IP65(standard type) or IP54(buzzer type).
- If the product is installed in locations that subject it to excessive dust or water other than the designated IP protection rating indicated, it may cause malfunction or damage to the product.
- For further information, please visit our website (www.qlight.com).

Mounting Accessories (Sold Separately)

- Please refer to the dimensions below for installation of mounting brackets
